

Series 600 – Educational Program

Policy Title: MUSICAL INSTRUMENT VENDING PROCEDURES

Policy Code No. 604.3

As a service to students and their parents/guardians, the district will conduct a distribution of vendor information regarding musical instruments. The purpose is to provide an opportunity for qualified vendors to present information regarding selling and renting of musical instruments and accessories to interested students and their parents/guardians.

Nothing in this policy may be considered to mean that any student is required to rent, lease, or purchase a musical instrument from any company qualified as a vendor under these rules, nor is there any restriction that students who purchase instruments from other vendors under this policy shall be in any way limited in or discouraged from band/orchestra participation as a result of their choice to obtain their instrument from some other vending source. This policy shall not remove any student's obligations to meet the requirements of any other policies made for the purpose of conducting a band/orchestra program.

Any schedule of vending events and specific activities shall be the responsibility of the administration.

The district will solicit no fewer than three qualified vendors to participate in the Instrument Vending process via a written notice requesting all interested vendors to contact the district.

All qualified vendors will be allowed to participate in vending activities. Qualification of each vendor will be determined by the administration based on written criteria contained in the accompanying administrative regulations.
