

Series 500 – Students

Policy Title: STUDENT ACTIVITIY PROGRAM

Policy Code No. 504.6

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetime.

Students will have an opportunity to participate in a school activity unless the activity is not offered or the student cannot participate for disciplinary reasons. If the activity is an intramural or interscholastic athletic activity, students of the opposite sex will have a comparable opportunity for participation. Comparable opportunity does not guarantee that boys and girls will be allowed to play on each other's teams when there are athletic activities available that will allow both boys and girls to reap the benefits of school activities, which are the promotion of additional interests and abilities in the students.

Student activity events must be approved by the superintendent, unless it involves unusual travel expense, in which case the board will take action. The events must not disrupt the educational program or other school district operations.

A high school student who participates in school sponsored athletics may participate in a non-school sponsored sport during the same season with approval of the superintendent, high school principal or athletic director.

It shall be the responsibility of the superintendent to develop administrative regulations for each school activity. These regulations will include, but not be limited to, when physical examinations will be required, how and when parents will be informed about the risk of the activity, academic requirements, and proof of insurance of the student participating in certain activities. Students wanting to participate in a school activities must meet the requirements set out by the school district for participation in the activity.
