

# Series 600 – Educational Program

Policy Title: GLOBAL EDUCATION

Policy Code No. 602.10

---

Global education, in the education program, is the lifelong growth in understanding, through study and participation, of the world community and the interdependency of its people and systems: social, cultural, racial, economic, linguistic, technological, and ecological. Because of our growing interdependence with other nations in the world, global education shall be incorporated into the education program for grades pre-kindergarten through twelve so that students have opportunities to acquire a perspective on world issues, problems, and prospects for an awareness of the relationship between an individual's self-interest and the concerns of people elsewhere in the world.
